**Terms of Approval**

**Design Organisation Approval Certificate  
EASA.21J.217**

**1. Scope of approval**

This Design Organisation Approval has been granted for:

- designing propellers and associated equipment and changes and repairs thereto in accordance with the applicable type certification basis and environmental protection requirements
- designing minor repairs to aircraft in accordance with the applicable type certification basis and environmental protection requirements
- showing and verifying the compliance with the applicable type-certification basis and environmental protection requirements, and
- demonstrating to the Agency this compliance.

**2. Categories of products**

Large and small aeroplanes  
Large helicopters  
Propellers

**3. List of products**

Types for which RATIER - FIGEAC is type-certificate holder:

FH 385 (EASA.P.012)  
FH 386 (EASA.P.012)

**4. Privileges**

(a) The holder of this design organisation approval shall be entitled to perform design activities under Part 21 and within its scope of approval.

(b) Subject to 21A.257(b), the Agency shall accept without further verification compliance documents submitted by the holder of this design organisation approval for the purpose of obtaining a type certificate or approval of a major change to a type design.

(c) The holder of this design organisation approval shall be entitled, within its terms of approval and under the relevant procedures of the design assurance system:

1. to classify changes to type design and repairs as "major" or "minor".
2. to approve minor changes to type design and minor repairs.
3. to issue information or instructions containing the following statement: "The technical content of this document is approved under the authority of DOA nr. EASA.21J.217".
4. to approve the design of major repairs to products for which it holds the type-certificate

**5. Limitations**

[See in 1, above]

Repair design at aircraft level is limited to equipment designed by RATIER-FIGEAC.

Date of issue: 22 July 2013
